The American Library Association (ALA) strongly supports legislation introduced by Rep. Bernie Sanders (I-VT), the Freedom to Read Protection Act, which would exempt libraries and booksellers from certain provisions of the USA Patriot Act -- in order to protect Americans’ constitutionally guaranteed right to read and access information without governmental intrusion or monitoring.

“There can be no question that we must protect Americans against terrorists, but that does not mean that we have to give the federal government the right to monitor what Americans are reading at their local library, or what books they are buying at their local bookstore,” said Rep. Sanders. “The Freedom To Read Protection Act will protect Americans’ constitutional rights to read books without fear that someone is violating their right to privacy,” he concluded.

In January, the ALA Council passed a resolution on the USA Patriot Act and Related Measures That Infringe on the Rights of Library Users, and the ALA Washington Office and Office for Intellectual Freedom have created Web pages on Libraries and the Patriot Act.

However, the Freedom to Read Protection Act would prevent unwarranted and unconstitutional intrusions into our fundamental constitutional right to think, read, and access information freely and openly. Recent history tells us that this is a reasonable and legitimate concern. Many librarians and library users recall the FBI’s Library Awareness Program of the 1970s and 80s, when the FBI inappropriately attempted to monitor patron’s reading habits and obtain personal information about library users. The library community is determined not to repeat this mistake.

Rep. Thomas Tancredo (R-CO) introduced legislation March 12 that would “terminate the e-rate program of the Federal Communications Commission,” which subsidizes telecommunications costs for schools and libraries. The E-Rate Termination Act (H.R. 1252), which currently has four cosponsors, has been referred to the House Committee on Energy and Commerce. ALA’s Washington Office notes that Tancredo introduced this bill in the last Congress to no success.
ALL ABOUT BOOKMOBILES

This has been a roller-coaster year for the KDLA bookmobile program. Anticipating budget reductions, the program was eliminated. The budget was reduced; however, the bookmobile program was saved – at least for this year. Recipients of new bookmobiles and other outreach vehicles will be published in the next edition of the Kentucky Public Library Newsletter.

Although KDLA does not have a full-time bookmobile coordinator, there are specialists ready to assist with your bookmobile questions. Call KDLA at 502-564-8300. For questions about programming on the bookmobile, call Susie Crowder, ext. 266. For bookmobile repair and maintenance issues, call Terry Manual, ext. 269. For any other bookmobile questions, including questions about grants, loaners, etc., call Tezeta Lynes, ext. 267.

Just turn to the State Library’s Ask a Librarian when you need to know.

The top five programs will receive stipends of $1000 each. The twenty best of the rest of the applications will receive stipends of $250.

GRANTS FROM TARGET

Target stores have a policy of making donations to community groups (their website lets you find your closest store) for the purposes of arts, education, and preventing family violence. According to the Target web page, “Reading is an essential element of each child's educational process. We fund programs that promote a love of reading or encourage children to read together with their families. We particularly focus on programs that inspire young readers (birth through third grade).”

Grants are generally between $1,000 and $5,000. Grant applications are being accepted until **July 21, 2003**. Applications are reviewed as they are received, and applicants are encouraged to apply early. Notification of requests is made in approximately 90 days.

To apply, print an application from the Target web site at [target.com/common/page.jhtml?content=target_cg_local_giving](http://target.com/common/page.jhtml?content=target_cg_local_giving). Click on “Target Grantmaking Guidelines” on the left, and follow instructions. Applicants will complete an on-line preregistration and then will be instructed to print an application form. Return the completed application to the local Target store manager, who will review the application, make funding recommendations, and update you on the status of your project.

DID YOU SAY THANK YOU?

Often, people will choose to make a cash donation to a charitable organization rather than to send flowers following a death. If the person being honored was a library user, a cash gift to the public library might be the perfect choice. Libraries should anticipate this and be prepared.

Does your library have a procedure for acknowledging donations in writing? Whether it is a standard letter or a personalized note, it is important to thank the donor for the gift. Not only does the donor know that the gift was received and appreciated, it also serves as documentation for tax purposes.

SPANISH THAT WORKS

For those concerned about being able to communicate with customers whose first or only language is Spanish, a number of free materials are available on the “Spanish That Works” web site at www.thelearninglight.com. Library Spanish/English Phrase Lists are available, as well as other resource materials of interest to libraries with Spanish speaking patrons. The materials are in pdf format, and include topics such as the Dewey Decimal Classifications and “Basic English for the Library” that can be given to patrons. The site also sells a 16-hour Spanish course for librarians.

It takes several steps to find the free material. At the home page select “Spanish that Works” and then click on the phrase ‘in the library’ located near the bottom of the page. That link describes the course, Spanish that Works in the Library. At the bottom of that page, click on “Free Materials.”

OPRAH LAUNCHES BOOK CLUB

Oprah Winfrey is planning to start a new book club, this one devoted to classic literary works, including works by contemporary authors such as Ernest Hemingway and Toni Morrison. Tentatively titled “Traveling with the Classics,” the new program will feature three to five authors per year. Each show will originate from a site connected with the selection—the author’s birthplace, the book’s setting or some other relevant locale. Winfrey made her announcement at the Association of American Publishers’ annual meeting in February.
